Tube Sealer

Aline TP-30 Pneumatic Tube Sealer

**TWO
YEAR
WARRANTY!**

[Click to enlarge](#)

The **ALINE Model TP-30 Pneumatically-operated Plastic Tube Sealer** is adaptable from the smallest to the largest size tubes.

All controls are solid state to assure accurate control of seal heat, seal time and cool time. The integral air pressure regulator allows precise control of jaw pressure. Feed-thru design allows removal of the sealed tubes from either end.

Two custom-made tube racks are included with your order, along with detailed operating instructions, sealing tips and a spare parts kit.

TP-30 Tube Sealer PRODUCTION RATES

TUBE DIAMETER		TUBES PER RACK	SEAL PER MINUTE	SEAL PER HOUR	SEALS PER DAY
INCHES	MM				
1/2	13	25	50	3000	24000
5/8	16	23	46	2760	22080
3/4	19	19	38	2280	18240
7/8	22	17	34	2040	16320
1	25	17	34	2040	16320
1 3/16	30	15	30	1800	14400
1 3/8	35	13	26	1560	12480
1 1/2	39	11	22	1320	10560
2	49	8	16	960	7680

NOTES:

- 1). NUMBER OF TUBES PER RACK IS BASED ON THE DIAMETER OF THE TUBE.
- 2). NUMBER OF SEALS PER MINUTE IS BASED ON AN ESTIMATED CYCLE TIME OF THIRTY SECONDS. ACTUAL TIMES MAY VARY SLIGHTLY AND DO NOT REFLECT AIR COOLING OR WATER COOLING OPTION.

• **Dimensions:**
36" L x 24" H x 18" W.

• **Shipping Weight:**
100 lbs.
