

# Now even the smallest retailer can afford top quality bag sealing

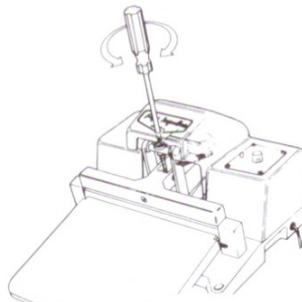

The FS-315 Shop Sealer from Fuji Impulse is a thermo-sealing unit sized and priced right for the small retailer. This remarkable unit allows even small shops to rebag bulk commodities into virtually any sized package desired. Easy to operate and maintain, the FS-315 Shop Sealer handles a wide range of commercially available films. Impulse heating across a special plate provides faster sealing. Ideal for sealing bags up to 300 mm long, the FS-315 Shop Sealer will prove to be right investment.

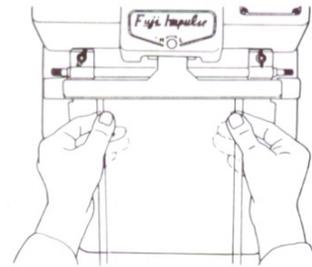

Two-core and three-core power cords are available.

## Features

1. Package films can be sealed easily and quickly without any special skills.
2. Only a slight pressure is needed for a strong sealing.
3. A new mechanism provides more uniform sealing.
4. Sealing pressure can be adjusted for optimum sealing.
5. Compact, light and portable.
6. Electronic timer controls sealing temperature.

Sealing pressure can be easily adjusted with a screwdriver.

A special remote switch leaves both hands free to hold bags.

## Specifications

	FS-315
Power supply	110 or 220 V, single phase, 500 W, 50/60 Hz
Weight	5.8 kg
Sealing dimensions	Heating element width: 2 mm/5 mm, length: 315 mm
Heating system	Impulse system (instantaneous heating)
Timer setting	0.3 sec. to 1.5 sec. (electronic timer)
