

Sealboy Magneta

Similar to our “Sealboy” this manually operated impulse machine is ideal for packing all kinds of products in a limited work space. The sealing time is adjustable with a timer. When the upper jaw is closed, the magnetic interlock ensures that the seal pressure is maintained until the sealing and cooling process is complete. When using tubular foil, it is possible to make different bag sizes using the shielded cutting device to trim off any excess foil length. The Sealboy Magneta comes in various models and a range of different sizes, each with a selection of accessories. The machine can work with all types of thermoplastic films (polyethylene, polypropylene, PVC and thin laminates).

Sealboy Magneta 235 SBM, 420 SBM, 620 SBM

Applications: all types of bags, iron-ware, mechanical and electric parts, various products, etc.

Technical specifications	235 SBM With timer and knife	420 SBM With timer and knife	420 SBMT With timer, knife & twin seal	620 SBM With timer and knife
Seal length	± 235 mm	± 420 mm	2x ± 420 mm	± 620 mm
Seal width	± 3 mm	± 3 mm	2x ± 3 mm	± 3 mm
Film thickness	Max. 2x0,2 mm	Max. 2x0,2 mm	Max. 2x0,2 mm	Max. 2x0,2 mm
Voltage *	230 V/50-60 Hz	230 V/50-60 Hz	230 V/50-60 Hz	230 V/50-60 Hz
Consumption	400 W	450 W	650 W	575 W
Dimensions of packed machine	45x20x26 cm	64x20x26 cm	64x20x26 cm	85x20x26 cm
Weight of machine	± 8 kg	± 9 kg	± 11 kg	± 12 kg

Magnetic interlock

* The machines are also available in 115V on request
